Letter of Transmittal

West Sacramento Area Flood Control Agency

January 29, 2021

To the West Sacramento Area Flood Control Area Board and Citizens served by the Agency:

Formal Transmittal of the Comprehensive Annual Financial Report (CAFR)

The West Sacramento Area Flood Control Agency (the Agency or WSAFCA) is a special district Joint Powers Authority (JPA) tasked with the improvement of West Sacramento's levee system. This report is published to fulfill the independent audit and financial reporting requirement for fiscal year ended June 30, 2020.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls that it has established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The firm, Crowe, LLP, was selected to audit the Agency's financial records. The auditor's report on the basic financial statement is included in the financial section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements the letter of transmittal and should be read in conjunction with it.

Internal Controls

WSAFCA's management is responsible for establishing and maintaining internal controls designed to ensure that the Agency's assets are protected from loss, theft, or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and, (2) the valuation of costs and benefits requires estimates and judgments by management. Management relies on and is confident that the internal controls in place are adequate to ensure the accuracy of the financial data provided herein.

As a recipient of state and local funding collected to construct levee improvements, the Agency is also responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to these programs. These internal controls are subject to periodic evaluation by management and staff of the City of West Sacramento Finance Division.

In addition, the Agency maintains extensive budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Agency Board. Activities for all funds are included in the annual appropriated budget.

As demonstrated by the statements and schedules included in the financial section of this report, the Agency continues to meet its responsibility for sound financial management.

Governmental Structure, Local Economic Condition Outlook

WSAFCA is a joint powers authority created by agreement between the City of West Sacramento (the "City"), Reclamation District No. 900 (RD 900), and Reclamation District No. 537 (RD 537). The Agency was created for the purpose of comprehensively managing the levee system, which reduces flood risk for West Sacramento's citizens, businesses, and assets.

The three-member WSAFCA Board formulates and enacts policy for the Agency. The boards of RD 900, RD 537, and the West Sacramento City Council each appoint a director and alternate director to serve as the WSAFCA Board.

The Agency provides services related to the financing, design, construction, and maintenance of West Sacramento's levee system. Services include the capital rehabilitation and improvement of levee facilities, fulfilling legal requirements associated with federal and state programs that relate to the Agency's mission, and activities that relate to and provide for the public's health and safety in regard to flood risk reduction.

The Agency is required to adopt by resolution a final biennial budget by June 30. The Fiscal Year 2019/20 budget was adopted on June 20, 2019. The budget serves as the foundation for the Agency's financial planning and control. The Agency's budget is organized and prepared by fund and activity or appropriation level within each category present in the financial statements. The Agency may transfer appropriations and establish new appropriation levels as resources allow.

At this point in time, the Agency is focused on an ambitious capital improvement of the levee system as outlined in the West Sacramento Levee Improvement Program (WSLIP). Typically, staff develops budget proposals for Board consideration based on project priority, developed through the Problem Identification and the Alternatives Analysis Reports, and the design, environmental, and construction stage of the project. As such, the Agency focuses its effort on correcting the highest risk system deficiencies first.

Local/Regional Economy

The annual job report in the six-county Sacramento region, of which the City is an integral part, is an essential component of the local/regional economic analysis. According to the 2020 Mid-Year Review, published by the Sacramento Business Review, COVID-19 is a dominant factor currently impacting the national and local economy. As the pandemic came in March 2020, state and federal governments imposed shelter-in-place/stay-at-home orders leaving millions immediately unemployed and many small businesses were sent into a state of shock and uncertainty. The Sacramento Region has been greatly impacted by the coronavirus and corresponding economic restrictions causing a spike in unemployment rates. Every sector of the Sacramento region economy has been affected, including leisure and entertainment, trade, transportation, and utilities. Service jobs were more impacted than goods producing jobs with service jobs down 16.4% compared to an 11.5% decline in good producing jobs. However, with some early signs that the economy may bounce back quickly both locally and nationally, there is hope that these job losses are temporary. Although, it is not likely the economy will make a full recovery for quite some time.

According to the California Employment Development Department (EDD) September 2020 report, Yolo County's unemployment rate was 7.1% in comparison to the State of California unemployment rate of 10.8%.

The table below illustrates the unemployment rate for the Yolo County in comparison with the State of California.

Unemployment Rate

	Yolo County	California	Difference
September 2020	7.1%	10.8%	-3.7%
August 2020	9.5%	11.2%	-1.7%
September 2019	3.1%	3.9%	-0.8%

Source: California Employment Development Department Labor Market Review September 2020

The sectors that gained jobs in the last month, per the California Employment Development's (EDD) September 2020 report, were Leisure and Hospitality (+48,400) Trade, Transportation and Utilities (+30,600), and Professional and Business Services (+15,700).

The 2020 Mid-year Update, published by Sacramento Business Review, breaks real estate into four major sectors; Office, Industrial, Retail, and Single-family. The Office sector has seen a decrease in market activity due to the coronavirus economic shutdown with an overall vacancy rate of 7.4% but is expected to be well-positioned to weather the impact of COVID-19. The Industrial sector saw a similar decrease as the Office sector but remains near full occupancy with a vacancy rate of 5.2%. Industrial is expected to be the least impacted sector by the pandemic. The Retail sector has been the most impacted sector by the pandemic. Mandatory shutdown of many retail establishments resulted in layoffs and business closures. The Single-family housing market continues to see growth, with median sale prices seeing an increase of 7.7% year-over-year. Future resale prices could continue to climb as new build construction, which sets price-ceilings on resales, decreased significantly with the economic shutdown.

In summary, the Sacramento Business Review stated that the Sacramento region fared slightly better than the nation as a whole for declines in the labor market, consumer confidence, business sentiment, small business lending, and commercial real estate. In addition, the housing market is expected to stay flat given the mass exodus of residents from the Bay Area in search of a better quality of life as working from home increases due to the pandemic. It is anticipated that 2021 will bring continued strong recovery and growth as the economy rebounds from the pandemic.

Long-Term Financial Planning

The Agency's planning and project development are informed and greatly facilitated by state and federal funding. The current cash flow model is premised on near-term participation of the State of California through its Early Implementation and Urban Flood Risk Reduction Programs. The West Sacramento Levee Improvement Program has been authorized as a federal project with its inclusion in the 2016 Water Infrastructure Improvements for the Nation Act of 2016 (P.L. 144-322, § 1401(2)). With the passing of the FY 2020 Appropriations bill, the US Army Corps of Engineers is now fully funded to complete pre-construction, engineering, and design (PED) work on the first increment of the federal project.

Relevant Financial Policies

The Agency's cash and investments, stated at fair value, are on account with and pooled with other governmental agencies by the City of West Sacramento's Finance Division for the purpose of capital preservation through conservative investment activity. Union Bank of California Trust Services serves as the Agency's fiscal agent for special assessment debt, i.e. bond proceeds that fund capital projects.

Major Initiatives

During the fiscal year, the Agency completed its fourth major project under the State's Early Implementation Program (EIP).

Southport Levee Improvement Project

The Southport Levee Improvement Project is the largest project undertaken by the Agency to date. Phase I constructed Village Parkway, which replaced South River Road (previously located on the levee crown) as the primary roadway for the east Southport area. Relocating the roadway from the levee to the new alignment disentangled levee maintenance operations and flood fighting from the public right of way and emergency evacuation route functions. Phase II, construction of the levee improvements, was completed in 2018. Additional drainage improvements at the project's west boundary and restoration of the borrow sites were completed in 2020.

Phase III, restoration of the floodplain, consists of habitat improvements and planting of the offset area flood plain created by Phase II of the project. Fine grading and planting were substantially completed in the fall of 2019. Establishment of the vegetation was completed in 2020. The project's use of an offset levee design reestablished more than 120 acres of river flood plain. The area has significant habitat value and will be used to help mitigate the impacts of future levee improvements.

North Area Project Close Out

The North Area projects were the Agency's initial levee improvement projects constructed to advance the WSLIP. The projects were constructed in partnership with the California Department of Water Resources utilizing funding provided in the State's Early Implementation and Urban Flood Risk Reduction Programs. Three projects, I Street Bridge South, CHP Academy, and Rivers, have completed construction. Remaining work consists of project close out documentation approvals and the transfer of real estate rights to the Sacramento San Joaquin Drainage District. Staff anticipates close out in 2021.

The Federal Project

The Southport project (all phases) was constructed in advance and is an integral part of the larger federal project identified in the US Army Corps of Engineers (USACE) West Sacramento General Reevaluation Report (2016). The West Sacramento Project was authorized by the Water Infrastructure Improvements for the Nation Act of 2016 (Sec. 1401(2)(8)). With the passing of the FY 2020 Appropriations bill, the US Army Corps of Engineers is now fully funded to complete preconstruction, engineering, and design (PED) work on the first increment of the federal project. The USACE, the Agency and the Central Valley Flood Protection Board have executed agreements to complete design of the first increment. The Agency is leading the design effort, which is scheduled to be complete in early 2021.

Regional Flood Management Program

The Agency received and administrated a State Regional Flood Management Plan grant for the Lower Sacramento Delta North Plan Region. Regional Plans were completed in 2014 and the State has developed a new program titled the Regional Flood Management Program. Where the 2012 guidelines focused on plans the 2019 guidelines will expand the scope of activities that can be pursued. The Agency will continue its role in leading this effort on behalf of the region's work to successfully balance flood improvements with public safety, environmental stewardship, and economic stability.

Future Projects

The Agency entered into design agreements with USACE and the Central Valley Flood Protection Board to initiate design of levee improvements on the Yolo Bypass Levee. This work will be fast tracked with the objective to produce 100% plans and specs ready to bid in 2021. A construction ready project will better position the Agency to secure federal construction funding when that funding becomes available.

AWARDS

The GFOA awarded a Certificate of Achievement for Excellence in Financial Reporting to the WSAFCA for its comprehensive annual financial report for the fiscal year ended June 30, 2019. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. In our opinion, the current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and it will be submitted to the GFOA to determine its eligibility for recognition.

ACKNOWLEDGMENTS

We would like to express our appreciation to the entire Finance Division of the Administrative Services Department and Flood Division of the Community Development Department for their effort in maintaining accurate and timely accounting records from which this report was prepared. We would also like to acknowledge the professional work and advice of Crowe, LLP.

Treasurer

Respectfully submitted,

Rebecca Robertson, Finance Manager

Greg Fabun, WSAFCA General Manager

West Sacramento Area Flood Control Agency, California

For its Comprehensive Annual Financial Report For the Fiscal Year Ended

June 30, 2019

Christopher P. Morrill

Executive Director/CEO

INDEPENDENT AUDITOR'S REPORT

Members of the Board of the West Sacramento Area Flood Control Agency Joint Powers Authority West Sacramento, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, and each major fund of West Sacramento Area Flood Control Agency Joint Powers Authority (Agency), as of and for the year ended June 30, 2020 and the related notes to the financial statements, which collectively comprise Agency's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund, of the West Sacramento Area Flood Control Agency Joint Powers Authority as of June 30, 2020, and the respective changes in financial position and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *Management's Discussion and Analysis* on pages 3 to 8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the West Sacramento Area Flood Control Agency Joint Powers Authority's basic financial statements. The introductory section, supplemental information and statistical section listed in the table contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information as listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information as listed in the table of contents, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 29, 2021 on our consideration of West Sacramento Area Flood Control Agency Joint Powers Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of West Sacramento Area Flood Control Agency Joint Powers Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering West Sacramento Area Flood Control Agency Joint Powers Authority's internal control over financial reporting and compliance.

Crowe LLP

Sacramento, California January 29, 2021

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

The Management of the West Sacramento Area Flood Control Agency (Agency), a Joint Powers Authority, presents readers of the Agency's financial statements this narrative overview and analysis of the financial activities of the Agency for the fiscal year ended June 30, 2020. Readers are encouraged to consider the information presented here in conjunction with additional information furnished in the Letter of Transmittal, which can be found on pages iii to vii of this report.

OVERVIEW OF THE COMPREHENSIVE ANNUAL FINANCIAL REPORT

This Comprehensive Annual Financial Report is in three major parts:

- 1) The **Introductory section**, which includes the Letter of Transmittal and general information;
- 2) The **Financial section**, which includes the Management's Discussion and Analysis (MDA, this section), the Basic Financial Statements, including the Government-wide and Fund Financial Statements along with the notes to these Financial Statements; and
- 3) The Statistical section.

The Basic Financial Statements

The Basic Financial Statements consist of the Government-wide Financial Statements and the Fund Financial Statements; these two sets of financial statements provide two different views of the Agency's financial activities and financial position.

The Government-wide Financial Statements

The Government-wide Financial Statements provide a broad overview of the Agency's activities as a whole, and consist of the Statement of Net Position and the Statement of Activities. The Statement of Net Position provides information about the financial position of the Agency as a whole, including all its capital assets and long-term liabilities on the full-accrual basis, similar to that used by corporations. The Statement of Activities provides information about the Agency's revenues and all its expenses, also on the full-accrual basis, with the emphasis on measuring net revenues or expenses of each of the Agency's programs. The Statement of Activities explains in detail the change in Net Position for the year.

The Statement of Net Position summarizes the financial position of all the Agency's Governmental Activities in a single column and includes the activities of the Agency's General Fund.

The format of the Statement of Activities presents the Agency's expenses first, listed by program. Program revenues are then deducted from program expenses to arrive at the change in net position.

Fund Financial Statements

A *fund* is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The WSAFCA, like other state and local agencies, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Agency utilizes four fund categories, each with a distinct purpose.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

The General Fund is used for all financial resources other than those that require accounting in another fund. The General Fund is used to pay all administrative, operating, and other expenditures incurred by the Agency, and to account for special benefit assessment and contribution revenues.

DWR/Flood Protection Grant/WSAFCA Special Revenue Fund account is for revenues and expenditures associated with the grant funds received from the State of California Department of Water Resources that are set aside prior to reconciliation.

Debt Service Fund accounts are for the accumulation of resources and payments of bond principal and interest of the Assessment Revenue Bonds (2011, 2015, and 2020) to finance construction of certain public capital improvements related to flood protection.

JPA Construction Capital Projects Fund account is for revenues and expenditures associated with the funding from various sources and expenditures to various approved capital improvement projects.

Because the focus of the Governmental Funds Financial Statements is narrower than that of the Government-wide Financial Statements, it is useful to compare the information presented for governmental funds to governmental activities in the Government-wide Financial Statement. By doing so, readers may better understand the long-term impact of the government's near-term financial decisions. Both the governmental funds balance sheet and the governmental funds statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Governmental Funds Financial Statements provide detailed information about the Agency's most significant funds, called the *major funds*. The concept of *major funds*, and the determination of which are *major funds*, was established by Governmental Accounting Standards Board (GASB) Statement 34 and replaces the concept of combining like funds and presenting them as one total. Instead, each *major fund* is presented individually, with all *non-major funds* summarized and presented only in a single column. Subordinate schedules present the detail of these *non-major funds*. *Major funds* present the major activities of the Agency for the year, and may change from year to year as a result of changes in the pattern of the Agency's activities. For the fiscal year ending June 30, 2020, the Agency's *major Governmental funds* are as follows:

- General Fund Fund 870
- Special Revenue Fund Fund 257
- Debt Service Funds Fund 882, Fund 883, and Fund 884
- Capital Projects Fund Fund 871

The Board, on a multi-year basis, initially covenanted debt service and projects with bond proceeds. Other projects in the capital projects funds are budgeted by the Board on a multi-year basis.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-wide and Fund Financial Statements. The notes to the financial statements can be found starting on page 17 of this report.

Supplemental Section

The schedules of revenues, expenditures and changes in fund balances – budget and actual of debt service and capital projects funds are presented immediately following the Notes to the Financial Statements. The Supplemental Section can be found starting on page 31 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The Agency presents its financial statements under the reporting model required by the GASB Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis (MD&A) – for State and Local Governments. For comparison purposes, two years of financial information is provided.

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. Assets plus deferred outflows of resources exceeded liabilities by \$172.4 million in Fiscal Year 2020 and \$165.3 million in Fiscal Year 2019. The increase of \$7.1 million in Fiscal Year 2020 is primarily due to the receipt of the funding from the State of California, Department of Water Resources, in the Southport Levee Implementation and Construction project.

CONDENSED STATEMENT OF NET POSITION AS OF JUNE 30, 2020, and 2019

Governmental Activities 2020 2019 Current and other assets \$ 32,825,879 27,263,347 Capital assets 194,108,148 189,342,910 **Total Assets** 226,934,027 216,606,257 Deferred amount on refunding of debt 1,372,850 511,891 1,372,850 **Total Deferred Outflows of Resources** 511,891 Current and other liabilities 16,845,253 11,781,989 Non-current liabilities 39,084,490 39,995,110 55,929,743 51,777,099 **Total Liabilities** Net investment in capital assets 155,230,898 148,000,309 Restricted 2,557,047 2,852,879 Unrestricted 14,487,861 14,589,189 172,377,134 165,341,049 **Total Net Position**

Governmental Activities

Special flood assessments have increased by 2% each year since the assessment was implemented Fiscal Year 2008. The special assessment levied on each parcel is a direct tax that reflects the relative benefit received from reduced flood risk and not related to property value. For the Fiscal Year 2020, the total governmental activities revenues were reported at \$20.1 million, a decrease of \$13.3 million when compared to Fiscal Year 2019. The decrease was primarily reported in the intergovernmental capital grants and contributions due to the near completion of the construction of the Southport Levee project. In 2019 the Agency received \$29.1 million in advance funding for the construction. In Fiscal Year 2020, approximately \$3.3 million of the advance funding was recorded as unearned revenue pending the Department of Water Resources approval of qualified expenditures. Total governmental expenses for Fiscal Year 2020 were \$13.0 million, an increase of \$7.9 million.

	CONDENSED STATEMENT OF ACTIVITIES						
	Governmental Activities						
	-	2020	_	2019			
REVENUES

NET POSITION AT JUNE 30	\$	172,377,134	\$	165,341,049			

Financial Analysis of the Agency's Funds

The Agency uses fund accounting to assure and demonstrate compliance with finance-related legal requirements. The fund financial statements focus on individual parts of the Agency government, reporting the Agency's operations in more detail than the Government-wide financial statements.

Governmental Funds

The governmental funds reported a combined fund balance of \$10.3 million at fiscal year end June 30, 2020, an increase of \$0.8 million from prior year. The increase was primarily in the Agency's Special Revenue Fund for advance funding of the Department of Water Resources Grant. Most of the advance received in the prior fiscal years from the grant was approved and recorded as earned revenue in Fiscal Year 2020 due to the levee construction project. The overall assets increased by \$5.6 million which was primarily due to the increase of Due from Other Governments. There was a contribution of \$3.1 million made from the WSAFCA General Fund to the Capital Project Fund in Fiscal Year 2020. The \$3.0 million increase of the net fund balance in the JPA construction Capital Projects Fund 871 is the result of the contribution from the Agency's General Fund.

	AS OF JUNE 30, 2020, and 2019							
	Governmental Funds							
	2020		2019					
Total Fund Balances (deficits)	\$ 10,338,804	\$	9,491,682					

The change in balance in the DWF/Flood Protection Grant Special Revenue Fund 257 was due to a reclassification of the prior advance from unearned to earned revenue for all allowable expenses incurred and approved by DWR for the levee construction.

The significant decrease in the 2011 Bond Debt Service Fund 882 cash and investment balance was due to the advance refunding of these bonds in January 2020. The slight increase in the 2015 Bond Debt Service Funds 882 and 883 cash and investment balances was due to a change approved by the Board to fund the full year of debt payment requirements as of June 30th. The 2020 Bond Debt Service Fund 884 represents the advance refunding of the Assessment Revenue Bonds, Series 2011. The cash and investment balances in these funds are restricted or committed for future debt service payments. The General Fund 870 provided \$3.5 million of funding for debt service payments in these funds. Expense activity represents scheduled debt service payments made and debt issuance costs for the advance refunding of the Assessment Revenue Bonds, Series 2011.

The cash and investment balance of the JPA Construction Capital Projects Fund increased from \$0.7 million to \$4.1 million. The significant increase of the cash and investment balance was due to a contribution of \$3.1 million made from the General Fund to the Capital Project Fund in Fiscal Year 2020. The minimum cash on hand was due to the active levee construction project which required immediate cash flow. The grants receivable remained nearly the same at \$7.5 million as the construction projects were nearly complete at the end of 2020. Fund 871 revenues decreased from \$35.2 million to \$13.9 million as additional grant revenues and contributions were received in the prior fiscal year. Fund 871 capital outlay expenses decreased from \$33.7 million to \$13.3 million due to the final stages of the levee construction projects.

General Fund Budgetary Highlights

The Agency has historically adopted two budgets. The first is an operational biennial budget that includes operational costs, staffing, vehicles, and minor departmental capital expenditures. The second is a capital improvement program approved by Agency Board separate from the original operating budget on a project by project basis. The capital program prioritizes projects by their ability to minimize risk to the community and leverage available grant funding opportunities at the

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

State and Federal levels. Each month, a report of actual revenue and expenditures are provided to the Board to monitor the fund balance. For the Fiscal Year 2020, the total revenues for General Fund were \$0.4 million over the final budget due to a slight increase in the assessment revenue and interest earnings. The total expenditures were \$0.2 million over the final budget due to an increase in the City staff costs. The Agency budgets revenues and expenditures conservatively to ensure the challenges with revenues and expenditures are managed properly.

Capital assets

The Agency's capital assets, net of depreciation, for its governmental activities as of June 30, 2020 and June 30, 2019 were \$194.1 million and \$189.3 million, respectively. The Agency's capital assets were reported as construction in progress and land in each of the last five years for land purchases and construction of levee improvements. More detail about the capital assets can be found in Note 3 of the Financial Statements.

Major capital asset projects during the year included the construction of the Southport Levee project and design of the first increment of the federal West Sacramento Project.

Long-term debt

The Agency's debt financing of capital assets for its governmental activities as of June 30, 2020 and June 30, 2019 were \$40.3 million and \$40.8 million, respectively. The decrease in 2020 was due to normal debt service payments being made. The most recent debt issuance was the 2020 Assessment Revenue Bonds. All debt proceeds were used to finance levee improvements or to refund previous debt issues for levee improvements.

More detail of the long-term liabilities and current transactions can be found in Note 4 of the Financial Statements.

Economic Outlook

Based on past revenues and current economic projections, The Agency forecasts the special assessment will continue to increase slightly above an average of 2% each year. The forecast growth will be based on a likely 2% Board approved assessment increase to fund the West Sacramento Levee Improvement Program which is entering the federal cost share phase and due to increased economic development in the community.

Requests for Information

This Comprehensive Annual Financial Report is intended to provide citizens, taxpayers, investors, and creditors with a general overview of the Agency's finances. If you have any questions about this report, need additional financial information, or would like to obtain component unit financial statements, contact the WSAFCA Administrative Services Department, 1110 West Capitol Avenue, West Sacramento, CA 95691, or visit the Agency's web page at http://www.cityofwestsacramento.org/city/flood/default.asp.

WEST SACRAMENTO AREA FLOOD CONTROL AGENCY JOINT POWERS AUTHORITY For the year ended June 30, 2020

STATEMENT OF NET POSITION AND STATEMENT OF ACTIVITIES

The statement of net position and the statement of activities summarize the West Sacramento Area Flood Control Agency Joint Powers Authority's (the "Agency") entire financial activities and financial position. They are prepared on the same basis as is used by most businesses, which means they include all of the Agency's assets, deferred outflows of resources, liabilities and deferred inflows of resources, as well as all its revenues and expenses. This is known as the full accrual basis—the effect of all of the Agency's transactions is taken into account, regardless of whether or when cash changes hands.

The statement of net position reports the difference between the Agency's total assets and deferred outflows of resources total liabilities and deferred inflows of resources, including all the Agency's capital assets and all its long-term debt. The statement of net position focuses the reader on the composition of the Agency's net position by subtracting total liabilities and deferred inflows of resources from total assets and deferred outflows of resources.

The statement of net position summarizes the financial position of all the Agency's governmental activities in a single column. The Agency's governmental activities include the activities of its General Fund.

The statement of activities reports increases and decreases in the Agency's net position. It is also prepared on the full accrual basis, which means it includes all the Agency's revenues and all its expenses, regardless of when cash changes hands. This differs from the "modified accrual" basis used in the fund financial statements, which reflect only current assets, deferred outflows of resources, liabilities and deferred inflows of resources, available revenues and measurable expenditures.

The format of the statement of activities presents the Agency's expenses first, listed by program. Program revenues - that is, revenues which are generated directly by these programs - are then deducted from program expenses to arrive at the net expense of each governmental program. The Agency's general revenues are then listed in the governmental activities column, as appropriate, and the change in net position is computed and reconciled with the statement of net position.

WEST SACRAMENTO AREA FLOOD CONTROL AGENCY JOINT POWERS AUTHORITY RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES June 30, 2020

Net change in fund balances - total Governmental Funds	\$ 847,122
Amounts reported for governmental activities in the statement of activities are different because:	
Long-Term Receivables Long-term receivables are not available to pay current period expenditures and funds. These revenues are recognized in the government-wide statements. This amount represents the change in unavailable revenues.	105,124
Capital Assets Transactions Governmental funds report capital outlay as expenditures. However, in the statement of assets are capitalized and allocated over their useful lives and reported as depreciation expense, if any.	
Capital outlay expenditures Loss on disposal of assets: Transfer of land not used in flood control projects If a planned capital project is canceled and will not be completed, cost previously capitalized as work-in-progress must be written off to expense. Depreciation expense	13,338,380 (2,846,462) (4,029,509) (1,697,171)
Long-Term Debt Transactions Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the government-wide statements. Repayment of principal is an expenditure in governmental funds, but reduces the long-term debt in the government-wide statements.	
Issuance of debt Principal payments Amortization of debt premium Deferred gain on refunding of debt Amortization of deferred amount from refunding of debt	(11,655,000) 12,135,000 100,610 887,663 (26,704)
Some expenses reported in the government-wide statements do not require the use of current financial resources and, therefore, are not expenditures in the governmental funds.	
Change in interest payable	 (122,968)
Change in Net Position of Governmental Activities	\$ 7,036,085

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNT POLICIES

Organization and Purpose: The West Sacramento Area Flood Control Agency Joint Powers Authority (the "Agency") was created in July, 1994, under the provisions of Chapter 5 of Division 7 of the Title 1 of the California Government Code (commencing with section 6500) for the purpose of controlling and conserving waters for the protection of life and property that would or could be damaged by being inundated by still or flowing water. The Agency's Governing Board is comprised of one representative from each charter member agency. The charter member agencies are the City of West Sacramento, Reclamation District No. 900 and Reclamation District No. 537. Each representative of the governing board has one vote. The members are appointed by the respective City Council or Board of Directors.

The Agency is partnering with the California State Department of Water Resources, the Central Valley Flood Protection Board and the Army Corps of Engineers to improve levees around the City of West Sacramento to meet 200-year state and federal flood protection standards by 2025. The Agency uses a special assessment on property owners, State Proposition 1E grant revenue and funding from other local agencies to complete its flood protection projects.

The Agency is also lead agency in developing the Regional Flood Management Plan (RFMP), which is a state grant funded flood risk reduction planning effort for the Lower Sacramento-Delta North Region of the larger Central Valley Flood Protection Plan. The Agency is funding grant application costs and each participating agency, including the County of Yolo and Sacramento Area Flood Control Agency, reimburses the Agency for their share of the costs, which are reported as intergovernmental revenues in the General Fund.

The accounting records of the Agency are maintained by the City of West Sacramento. The Agency has no employees and substantially all staff services are performed by City of West Sacramento personnel. Costs incurred by the City of West Sacramento to provide such services are reimbursed by the Agency.

The Agency is considered to be a separate legal entity and is not a component unit of the above members because its Governing Board is not controlled by any member and it has no financial benefit or burden relationship with any member. However, the noncapital assets are reported within an agency fund in the City of West Sacramento's basic financial statements.

<u>Basis of Presentation</u>: The Agency's basic financial statements are prepared in conformity with accounting principles generally accepted in the United States of America. The Government Accounting Standards Board is the acknowledged standard setting body for establishing accounting and financial reporting standards followed by governmental entities in the United States of America. These Standards require that the financial statements described below be presented.

<u>Government-wide Financial Statements</u>: The statement of net position and the statement of activities include the financial activities of the overall Agency's governmental activities. Governmental activities generally are financed through intergovernmental revenues. The Agency is the only entity included in these financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNT POLICIES (Continued)

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Agency's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) special benefit assessments for operations of the programs, (b) contributions that are restricted to meeting the operational needs of a particular program and (c) fees, grants and contributions that are restricted to financing the acquisition or construction of capital assets. Revenues that are not classified as program revenues are presented as general revenues.

<u>Fund Financial Statements</u>: The fund financial statements provide information about the Agency. The emphasis of fund financial statements is on major individual governmental funds. The Agency has the following major funds:

General Fund - The General Fund is the general operating fund of the Agency. It is used to account for all financial resources except those required to be accounted for in another fund. This fund is used to pay all administrative, operating and other expenditures incurred by the Agency, and to account for special benefit assessment and contribution revenues.

DWR/Flood Protection Grant Special Revenue Fund - Special Revenue Funds are used to account for specific revenues that are restricted by law or administrative action to expenditures for particular purposes. The DWR/Flood Protection Grant Special Revenue Fund is used to account for revenues and noncapital expenditures associated with the grant funds received from the State of California Department of Water Resources for levee improvements.

2011 Flood Bond Debt Service Fund - The 2011 Flood Bond Debt Service Fund is used to account for the accumulation of resources and payments of bond principal and interest of the Assessment Revenue Bonds, Series 2011, issued to finance the construction of certain public capital improvements related to flood protection.

2015 WSAFCA Bond Debt Service Fund - The 2015 Flood Bond Debt Service Fund is used to account for the accumulation of resources and payments of bond principal and interest of the Assessment Revenue Bonds, Series 2015, issued to finance the construction of certain public capital improvements related to levee improvements and flood control and to refund a portion of the Assessment Revenue Bonds, Series 2008.

2020 WSAFCA Bond Debt Service Fund - The 2020 Flood Bond Debt Service Fund is used to account for the accumulation of resources and payments of bond principal and interest of the Assessment Revenue Bonds, Series 2020, issued to finance the construction of certain public capital improvements related to levee improvements and flood control and to refund the remaining portion of the Assessment Revenue Bonds, Series 2011.

JPA Construction Capital Projects Fund - Capital projects funds are used to account for resources that are restricted, committed or assigned to expenditures for capital outlays, including the acquisition and construction of capital facilities. The JPA Construction Capital Projects Fund is used to account for revenues and capital expenditures associated with the grant funds received from the State of California Department of Water Resources for levee improvements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNT POLICIES (Continued)

<u>Basis of Accounting</u>: The government-wide financial statements are reported using the economic resources measurement focus and the full accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Interfund transactions are eliminated.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when they are both measurable and available. Expenditures are recorded when the related fund liability is incurred. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

Non-exchange transactions, in which the Agency gives or receives value without directly receiving or giving equal value in exchange, may include property taxes, grants, entitlements, and donations. Revenue from property taxes, special benefit assessments, is recognized in the fiscal year for which the taxes are levied if received in the availability period. Revenue from cost reimbursement grants is recognized in the fiscal year in which eligible costs have been incurred, if received in the availability period.

When both restricted and unrestricted resources are available for use, the Agency's policy is to use restricted resources first, then unrestricted resources as they are needed.

Restricted Assets: Restricted assets include fiscal agent cash and investments held by bond trustees that are restricted to principal and interest payments by the related bond indentures and an advance from the State Department of Water Resources (DWR) and related interest earnings totaling \$8,792,858 that must be held and used on prescribed Southport Levee construction project expenditures. The restricted Agency pledged funds of \$1,101,055 to assure performance of the reclamation plan for the Borrow One site in lieu of a performance bond under the Surface Mining Reclamation Act was released and ended on June 30,2020. In fiscal year 2020, the Agency pledged funds of \$850,577 for a letter of credit for surety of mitigation plantings in the Southport areas.

Receivables: Grants receivable represent Proposition 1E revenue earned as of year-end and due from the State of California Department of Water Resources. The amounts of the qualifying expenditures have been estimated and the actual amount realized may differ from the amount paid by the Department of Water Resources. Due from other governments represents reimbursements due from other governments for the RFMP. Governmental fund revenues are accrued as revenues if received within the "availability period", which is generally within 60 days of year-end, with the exception of grants and sales and use taxes, which are considered available if received within 90 days of year-end.

<u>Capital Assets</u>: The cost of assets sold or retired (and related accumulated depreciation) are eliminated from the accounts in the year of sale or retirement and the resulting gain or loss is included in the operating statement of the related fund. In governmental funds, the sale of general capital assets is included in the statement of revenues, expenditures and changes in fund balances as proceeds from sale.

Capital assets, which include land, buildings, improvements, equipment and infrastructure assets (e.g., roads, bridges, curbs and gutters, streets and sidewalks, drainage systems, and lighting systems), are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at the acquisition value, which is the price that would be paid to acquire an asset with equivalent service potential in an orderly market transaction at the acquisition date.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNT POLICIES (Continued)

For certain older assets, including infrastructure, estimated historical costs are used. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Depreciable lives of capital assets are as follows:

Buildings	50 years
Improvements	10-40 years
Equipment	5-25 years
Infrastructure	25-80 years

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds over the same period.

<u>Unearned Revenue</u>: Unearned revenues arise when resources are received before the Agency has legal claim to them (i.e. when cost reimbursement grant revenues are received prior to the incurrence of qualifying expenditures). The Agency's unearned revenues consist of grant revenues received from the DWR for levee projects. Amounts held must be used for qualifying expenses or returned to the DWR.

<u>Deferred Outflows and Inflows of Resources</u>: Deferred outflows and inflows of resources are separate financial statement elements that represent a consumption (outflow) or acquisition (inflow) of net position that applies to a future period and so will not be recognized as an outflow (expense/expenditure) or inflow (revenue) of resources until the earnings process is complete. Governmental fund revenues that are not received within the Agency's availability period under modified accrual accounting are reported as deferred inflows of resources until available. Such amounts are recognized as revenue in the government-wide statements. Deferred amounts on refunding of debt may also be reported as deferred outflows or inflows of resources.

<u>Interfund Transactions</u>: Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "due to/from other funds" (i.e., the current portion of interfund loans). Transfers are used to move revenues from the fund that statute or budget requires to collect them to the funds that statute or budgets require to expend them or to move receipts restricted to debt service from the funds collecting them to the debt service funds as payments are due. Transfers were made from the General Fund to the debt service funds to fund debt service payments.

<u>Budgets and Budgetary Accounting</u>: Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP), with the exception of capital outlay expense that is not budgeted. Budget amounts in the financial statements are as originally adopted, or as amended by the Board. Individual amendments were not material in relation to the original appropriations. Expenditures may not legally exceed appropriations at the fund level, which is the legal level of control. Formal budgetary integration is employed as a management control device. Encumbrance accounting is employed as an extension of formal budgetary integration in all funds. Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation. Encumbrances outstanding at year end are reported as commitments or assignments of fund balances since they do not constitute expenditures or liabilities and are re-appropriated in the following year. The DWR/Flood Protection Grant – Special Reserve Fund did not have a legally adopted budget for fiscal year 2020, therefore a budget to actual schedule is excluded from the report.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNT POLICIES (Continued)

Fund Balance Classification:

Net Position - The government-wide financial statement includes the following categories of net position:

- Net investment in capital assets This represents the Agency's total investment in capital assets, net
 of associated outstanding debt obligations related to those capital assets. To the extent debt has been
 incurred but not yet expended for capital assets, such amounts are not included as a component of
 net investment in capital assets
- 2. Restricted net position This category presents external restrictions imposed by creditors, grantors, contributors or laws and regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- 3. Unrestricted net position any amount that is not restricted.

Fund Balance - In the fund financial statements, fund balance amounts are reported based on the Agency's constraints on the use of funds.

- 1. *Nonspendable* are not expected to be converted to cash within the next operating cycle and are typically comprised of prepaid items. As of June 30, 2020, the Agency had no nonspendable fund balances.
- 2. *Restricted* are subject to external restrictions imposed by creditors, grantors, contributors, laws, regulations, or enabling legislation which requires the resources to be used only for a specific purpose.
- 3. Committed are subject to constraints imposed by formal action of the Agency's Board which may be altered only by formal action of the Agency's Board through a resolution.
- 4. Assigned are amounts constrained by the Agency's intent to be used for a specific purpose, but are neither restricted nor committed. Intent is expressed by the Agency's Board or management and may be changed at their discretion. As of June 30, 2020, the Agency had no assigned fund balances.
- 5. Unassigned is the residual amount of the General Fund not included in the four classifications described above. In other governmental funds in which expenditures incurred for specific purposes exceeded amounts restricted, committed, or assigned to those purposes, a negative unassigned fund balance is reported. This includes the residual general fund balance and residual fund deficits, if any, of other governmental funds. The Agency typically spends resources in the following order when an expenditure is incurred: restricted, committed, assigned, and unassigned.

NOTE 2 - CASH AND INVESTMENTS

The Agency pools cash from all sources with the City of West Sacramento so that it can be invested at the maximum yield, consistent with safety and liquidity, while individual funds can make expenditures at any time. The City's investment policy and the California Government Code permit investments in Securities of the U.S. Government or its agencies, certificates of deposit, negotiable certificates of deposit, medium-term notes, commercial paper, banker's acceptances, commercial paper, the State of California Local Authority Investment Fund (LAIF Pool), repurchase agreements, and passbook savings account demand deposits. The City's full investment policy may be found in the City's Comprehensive Annual Financial report on the City's website at cityofwestsacramento.org.

The Agency follows the practice of pooling cash and investment of all funds. Cash and investments as of June 30, 2020 are classified in the accompanying financial statements as follows:

City Treasury - Unrestricted City Treasury - Restricted	\$ 9,098,362 9,643,435
Total City Treasury	18,741,797
Fiscal Agents: U.S. Agency Securities Money Market Mutual Funds Total Cash and Investments with Fiscal Agents	1,655,528 50,942 1,706,470
Total	\$ 20,448,267

Investments Authorized by the California Government Code and the City's Investment Policy: The Agency has adopted the City' of West Sacramento's investment policy for all investments with the exception of investments held by bond trustees that are governed by the provisions of the debt agreements of the Agency's, rather than the Agency's investment policy.

		Minimum		Maximum
	Maximum	Credit	Maximum %	Investment

JPA Pools, including CAMP	N/A	N/A	None	None

NOTE 2 - CASH AND INVESTMENTS (Continued)

Investments Authorized by Debt Agreements: The Agency must maintain required amounts of cash and investments with trustees or fiscal agents under the terms of certain debt issues. These funds are unexpended bond proceeds or are pledged reserves to be used if the Agency fails to meet its obligations under these debt issues. The California Government Code requires these funds to be invested in accordance with Agency resolutions, bond indentures or State statutes. The investments authorized by debt agreements include all of the investments listed in the previous table authorized by the City's investment policy. The debt agreements also authorize debt proceeds to be invested in guaranteed investment contracts that are guaranteed by a financial institution that has an unsecured rating or the agreement itself is rated in one of the two highest rating categories by two or more rating agencies. The agreements must be secured at all times by securities consisting of United States Obligations with a market value of 105% of the principal amount of the obligation. The debt agreements do not specify a maximum percentage of the portfolio or maximum amount in one issuer for guaranteed investment contracts.

<u>Interest Rate and Credit Risk</u>: Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways the Agency manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the Agency's investments (including investments held by bond trustees) to market interest rate fluctuations is provided by the following table that shows the distribution of the Agency's investments by maturity:

Investment Type	<u>Total</u>	12 Months or Less	13 to 24 Months
Cash and Investments in City			
Treasury - Unrestricted	\$ 9,098,362	\$ 9,098,362	\$ -
Cash and Investments in City			
Treasury - Restricted	9,643,435	9,643,435	-
Cash and Investments with	, ,	, ,	
Fiscal Agents:			
U.S. Agency Securities	1,655,528	1,655,528	_
Money Market Mutual Funds	50,942	50,942	
Total	\$ 20,448,267	\$ 20,448,267	\$ -

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the Agency's investment policy, or debt agreements, and the actual rating as of yearend for each investment type.

NOTE 2 - CASH AND INVESTMENTS (Continued)

<u>Fair Value Measurements</u>: The following methods and assumptions were used by the Agency to estimate fair value of its financial instruments as of June 30, 2020.

Fair value is the exchanged price that would be received for an asset or paid to transfer a liability (exit price) in the principal of most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1 – Quoted market prices or identical instruments traded in active exchange markets.

Level 2 – Significant other observable inputs such as quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable or can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect a reporting entity's own assumptions about the methods that market participants would use in pricing an asset or liability.

The Agency has the following recurring fair value measurements as of June 30, 2020:

		Fair \	Fair Value Measurement Using			
lavoratus auta lavofais valva laval	<u>Amount</u>	(Level 1)	(Level 2)	(Level 3)		
Investments by fair value level: U.S. Agency Securities	\$ <u>1,655,528</u>	<u>\$</u> _	\$ 1,655,528	<u>\$ -</u>		
Investments measured at net asset value or not categorized: Cash and Investments in City

	<u>\$ 40,830,710</u>	<u>\$ 11,655,000</u>	\$ (12,235,610)	<u>\$ 40,250,100</u>	<u>\$ 1,165,610</u>

<u>Description of Debt</u>: West Sacramento Area Flood Control Agency Assessment Revenue Bonds, Series 2011 - In 2011, the Agency issued revenue bonds to fund construction of WSLIP repair projects, and fund planning, environmental, and engineering program costs related to the Southport Sacramento River Levee EIP Project. The bonds are payable solely from annual assessment installments for capital facilities to be levied by the Agency on all parcels in the City of West Sacramento. Principal payments of \$100,000 to \$840,000 are due annually on September 1 through September 1, 2041. Interest payments of \$22,055 to \$464,895 are due semi-annually on March 1 and September 1 through September 1, 2041. Interest rates range from 2.2% to 5.25%.

NOTE 4 - LONG-TERM LIABILITIES (Continued)

West Sacramento Area Flood Control Agency Assessment Revenue Bonds, Series 2015 - In 2015, the Agency issued revenue bonds to continue levee improvement projects. Proceeds will be used to provide the local match for the construction phase of the Southport Project, which includes significant right of way acquisition, planning, environmental, and design studies for the next major flood project proposed for the northern portion of the City and referred to as the "North Area Project. A portion of the proceeds was also used to defease a portion of the Agency's outstanding Assessment Revenue Bonds, Series 2008. The bonds are payable solely from annual assessment installments for capital facilities to be levied by the Agency on all parcels in the City of West Sacramento. Principal payments of \$45,000 to \$2,445,000 are due annually on September 1 through 2045. Interest rates range from 2.0% to 5.0%.

West Sacramento Area Flood Control Agency Assessment Revenue Refunding Bonds, Series 2020 - In 2020, the Agency issued revenue bonds to defease and refund the Agency's outstanding Assessment Revenue Bonds, Series 2011. The bonds are payable solely from annual assessment installments for capital facilities to be levied by the Agency on all parcels in the City of West Sacramento. Principal payments of \$405,000 to \$705,000 are due annually on September 1 through 2041. Interest payments of \$24,795 to \$324,765 are due annually on September 1 through 2041. Interest rates range from 1.7% to 3.5%. The Agency in effect reduced its aggregate debt service payments by \$3,309,211 over the next 21 years and obtained an economic gain of \$1,484,870.

Calculation of difference in cash flow requirements and economic gain are as follows:

Old debt service cash flows New debt service cash flows		9,457,513 6,148,302
Total cash flow difference	<u>\$ 3</u>	<u>3,309,211</u>
Present value of old debt service cash flows Present value of new debt service cash flows		1,021,204 2,536,334
Economic gain	\$ 1	1,484,870

Debt Service Requirements: The annual debt service requirements at June 30, 2020 are as follows:

Year Ending June 30:		<u>Principal</u>	Interest	<u>Total</u>
2021 2022 2023 2024 2025 2026-2030 2031-2035 2036-2040 2041-2045 2046	\$	1,065,000 900,000 930,000 965,000 1,000,000 5,605,000 6,630,000 7,900,000 10,320,000 2,445,000	\$ 1,398,159 1,501,427 1,468,774 1,434,702 1,398,754 6,382,517 5,364,130 4,038,688 1,974,931 61,126	\$ 2,463,159 2,401,427 2,398,774 2,399,702 2,398,754 11,987,517 11,994,130 11,938,688 12,294,931 2,506,126
	<u>\$</u>	37,760,000	\$ 25,023,208	\$ 62,783,208

(Continued)

NOTE 4 - LONG-TERM LIABILITIES (Continued)

<u>Pledged Revenues</u>: The Agency has pledged future assessment revenues, net of specified expenses, to repay all of the 2011, 2015, and 2020 Series Bonds through 2041 and 2045. The purpose of the Bonds is described above. The total principal and interest remaining to be paid on the bonds is \$62,783,208. The principal and interest paid for the current year and total customer net revenues were \$2,553,031 and \$3,865,882, respectively. Bond payments were approximately 68% of net revenues.

<u>Line of Credit</u>: In February 2017, the Agency executed a \$3.5 million unsecured line of credit agreement with First Northern Bank of Dixon (the Bank) that expires on June 30, 2021 to assist with any cash flow needs on the Southport Project. The Agency pays a 0.50% unused line of credit fee annually on the unused portion of line of credit determined by averaging the daily amount outstanding and subtracting that amount from the credit limit. Any disbursements are subject to a variable interest rate equal to the Wall Street Journal Prime Rate less 1.435% with a 2.015% floor and may change daily. Under the terms of the agreement, if the Agency issues any bonds totaling in excess of \$5 million in connection with the Southport Project, the Bank may require some or all of the proposed bond proceeds to be used to repay all or a portion of the outstanding balance under the agreement and/or terminate the agreement at its discretion. The Agency is required to maintain a deposit account at the Bank to facilitate draws and payments under the agreement. The Agreement may be terminated by the Agency with 30 days' notice. As of June 30, 2020, the Agency had no outstanding balance for the line of credit.

NOTE 5 - RISK MANAGEMENT

The Agency is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Agency purchases insurance coverage for commercial general liability, public officials' and management liability. There have been no significant reductions in insurance coverage from the prior year by major categories of risk and there have been no settlements exceeding insurance coverage for the past three years.

NOTE 6 - COMMITMENTS AND CONTINGENCIES

<u>Long-Term Commitments</u>: The Agency had the following significant contract commitments as of June 30, 2020:

Description	Contract Amount		 Remaining
Southport ID/IQ (Includes Task Orders 1-6)	\$	20,106,348	\$ 1,412,219
Borrow Restoration Hauling		11,534,000	11,534,000

Southport Land		1,494,866	264,403
Gen Supportw/ Fin Mgmt		1,343,700	1,018,301
Southport Restoration Design		1,279,960	485,334
Southport Surveying		1,258,781	316,342
Time Oil Env Ass & Cons Services		1,196,124	429,488
RFMP Project Delivery Team		850,000	850,000
Const Mgmt Services TO4		482,788	168,145
NAP		306,945	74,690
North Area Surveing		228,931	35,745
Southport Plant Propagation		177,500	229
Const Mgmt Services TO1		151,225	40,077
Federal Lobbying		102,500	67,500
YBEL Environmental Review		63,355	61,739
Enterprise Crossings Tech Memo		50,000	 50,000
	\$	62,448,007	\$ 22,231,517

The commitments above represent encumbrances of the JPA Construction Capital Projects Fund. The Agency acquired a number of properties under eminent domain proceedings as part of flood control projects. As of June 30, 2020, the Agency made deposits into escrow accounts controlled by the State of California based on external appraisals to be able to access the related properties, but several landowners have disputed the fair value assigned by the Agency.

The Agency's management believes there will be no significant additional liabilities for the properties acquired; however, the amount that will ultimately be paid for the properties may potentially change. The Agency received grants from other governmental agencies that are subject to compliance audits by the granting agency. No audits have been conducted by the granting agencies during the year. The amount, if any, of expenditures that may be disallowed by the granting agencies cannot be determined at this time although the Agency expects the amounts, if any, to be immaterial.

NOTE 7 – INTERFUND TRANSFERS

Transfers are used to move revenues from the fund that statute of budget requires to collect them to the funds that statute of budget requires to expend them, move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and subsidize operating losses.

Interfund transfers for the 2019-2020 fiscal year were as follows:

Transfer from the General Fund to the JPA Construction Capital Projects Fund for local capital project funding.	\$ 3,132,828
Transfer from the General Fund to the 2011 Flood Bond Debt Service Fund for debt service.	569,591
Transfer from the 2020 WSAFCA Bond Debt Service Fund to the 2011 Flood Bond Debt Service Fund for return of excess funds transferred.	296,288
Transfer from the General Fund to the 2015 WSAFCA Bond Debt Service Fund for debt service.	2,107,696
Transfer from the 2011 Flood Bond Debt Service Fund to the 2015 WSAFCA Bond Debt Service Fund to transfer reserve funds after bond defeasance for debt service.	1,035
Transfer from the General Fund to the 2020 WSAFCA Bond Debt Service Fund for debt service.	792,372
Transfer from the 2011 Flood Bond Debt Service Fund to the 2020 WSAFCA Bond Debt Service Fund for the advance refunding of the 2011 bonds.	 902,147
	\$ 7,801,957

NOTE 8 - NEW PRONOUNCEMENTS

The following pronouncement has been implemented this fiscal year.

GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, issued May 2020. The primary objective of this Statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later. This Statement is effective for the Agency's fiscal year ending June 30, 2020. This implementation of this Statement did not have a material effect on the financial statements.

NOTE 8 - NEW PRONOUNCEMENTS (Continued)

GASB has issued the following statements which may impact the Agency's financial reporting requirements in the future:

GASB Statement No. 84, Fiduciary Activities, issued January 2017. The provisions of this Statement are effective for reporting periods beginning after December 15, 2019.

GASB Statement No. 87, *Leases*, issued June 2017. The provisions of this Statement are effective for reporting periods beginning after June 15, 2021.

GASB Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period, issued June 2018. The provisions of this Statement are effective for reporting periods beginning after December 15, 2020.

GASB Statement No. 90, Majority Equity Interests—an amendment of GASB Statements No. 14 and No. 61, issued September 2018. The provisions of this Statement are effective for reporting periods beginning after December 15, 2019.

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, issued March 2020. The provisions of this Statement, except for paragraphs 11b, 13, and 14 which have later effective dates, are effective for fiscal years beginning after June 15, 2020.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, issued March 2020. The provisions of this Statement are effective for fiscal years beginning after June 15, 2022

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, issued May 2020. The provisions of this Statement are effective for fiscal years beginning after June 15, 2022.

GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an amendment of GASB Statements No. 14 and no. 84, and a supersession of GASB Statement No. 32, issued June 2020. The provisions of this Statement, except for those provisions effective immediately, are effective for fiscal years beginning after June 15, 2021.

NOTE 9 – COVID-19 PANDEMIC IMPACT

In December 2019, a novel strain of coronavirus has spread around the world resulting in business and social disruption. The coronavirus was declared a Public Health Emergency of International Concern by the World Health Organization on January 30, 2020. In March 2020, the State of California issued a statewide shelter-in-place order that continues to have a significant impact on the State of California and local economy. The extent to which the coronavirus may impact economic activity or investment results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions required to contain the coronavirus. Management has not included any contingencies in the financial statements specific to this recent event.

WEST SACRAMENTO AREA FLOOD CONTROL AGENCY JOINT POWERS AUTHORITY STATISTICAL SECTION June 30, 2020

This part of the West Sacramento Area Flood Control Agency Joint Powers Authority's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Agency's overall financial health.

Financial Trends

These schedules contain financial trend information for assessing the Agency's financial performance and well-being over time.

- 1. Net Position by Component
- 2. Changes in Net Position
- 3. Fund Balances of Governmental Funds
- 4. Changes in Fund Balance of Governmental Funds

Revenue Capacity

These schedules present revenue capacity information to assess the Agency's ability to generate revenues. Special assessments, intergovernmental revenues and reimbursements from other agencies are the Agency's most significant revenue sources.

- 1. Assessed Value and Estimated Actual Value of Taxable Property
- 2. Direct and Overlapping Property Tax Rates
- 3. Flood Assessment Special Tax Rates
- 4. Principal Property Taxpayers
- 5. Special Tax Levies and Collections

Debt Capacity

These schedules present information to assess the affordability of the Agency's current levels of outstanding debt and the Agency's ability to issue additional debt.

- 1. Ratios of Outstanding Debt by Type
- 2. Direct and Overlapping Governmental Activities Debt
- 3. Pledged-Revenue Coverage

Demographic and Economic Information

These schedules provide information on the demographic and economic environment in which the Agency conducts business.

- 1. Demographic and Economic Statistics
- 2. Principal Employers

(Continued)

WEST SACRAMENTO AREA FLOOD CONTROL AGENCY JOINT POWERS AUTHORITY STATISTICAL SECTION June 30, 2020

Operating Information

These schedules provide information on the City's service infrastructure to assist the reader in understanding how the information in the City's financial report relates to the services the City provides and the activities it performs

- 1. Full Time Equivalents City Government Employees by Function/Program
- 2. Operating Indicators by Function/Program
- 3. Capital Assets Statistics by Function/Program

Sources

Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports of the relevant years. The Agency prepared a CAFR for the first time during the year ended June 30, 2011. Information is not available prior to that date.

⁽¹⁾ Includes the assessed value of the Redevelopment Agency of \$2,077,868,964 (2013); \$2,424,781,608 (2014); \$2,449,410,832 (2015); \$2,670,024,211 (2016); \$3,270,136,086 (2017); \$3,354,775,638 (2018); \$3,542,382,076 (2019) and \$3,730,937,499 (2020).

In 1978 the voters of the State of California passed Proposition 13, which limited property taxes to a total maximum rate of 1% based upon the assessed value of property being taxed. Each year, the assessed value of the property may be increased by an "inflation factor" (limited to a maximum increase of 2%). With few exceptions, property is only reassessed at the time that it is sold to a new owner. At that point, the new assessed value is reassessed at the purchase price of the property sold. The assessed valuation data shown above represents the only data currently available with respect to the actual market value of taxable property and is subject to the limitations described above.

In 1978, California voters passed Proposition 13 which sets the property tax rate at a 1.00% fixed amount. This 1.00% is shared by all taxing agencies for which the subject property resides within. In addition to the 1.00% fixed amount, property owners are charged taxes as a percentage of assessed property values for the payment of Washington Unified School District and Los Rios Community College District bonds.

Agency did not track this information prior to 2010.

included based on principal due at maturity.

WEST SACRAMENTO AREA FLOOD CONTROL AGENCY JOINT POWERS AUTHORITY NOTES TO DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT June 30, 2020

NOTE 1 - For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another government unit's taxable assessed value that is within the City's boundaries and dividing it by each unit's total taxable assessed value.

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

NOTE 2 - On February 1, 2012, the State of California eliminated the Redevelopment Agencies in California pursuant to Assembly Bill 1x26. The liabilities of the Redevelopment Agencies are reported as Redevelopment Obligation Retirement Fund, a private purpose trust fund.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Members of the Board of the West Sacramento Area Flood Control Agency Joint Powers Authority West Sacramento, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, and each major fund of West Sacramento Area Flood Control Agency Joint Powers Authority, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise West Sacramento Area Flood Control Agency Joint Powers Authority's basic financial statements and have issued our report thereon dated January 29, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered West Sacramento Area Flood Control Agency Joint Powers Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of West Sacramento Area Flood Control Agency Joint Powers Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of West Sacramento Area Flood Control Agency Joint Powers Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a deficiency in internal control, described in the accompanying *Schedule of Findings and Responses* as Finding 2020-01 that we consider to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether West Sacramento Area Flood Control Agency Joint Powers Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

West Sacramento Area Flood Control Agency Joint Powers Authority Response to Findings

West Sacramento Area Flood Control Agency Joint Powers Authority's response to the findings identified in our audit are described in the accompanying *Schedule of Findings and Responses*. West Sacramento Area Flood Control Agency Joint Powers Authority's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the West Sacramento Area Flood Control Agency Joint Powers Authority internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Crowe LLP

Sacramento, California January 29, 2021

WEST SACRAMENTO AREA FLOOD CONTROL AGENCY JOINT POWERS AUTHORITY SCHEDULE OF FINDINGS AND RESPONSES For the year ended June 30, 2020

CURRENT YEAR FINDINGS - FINANCIAL STATEMENT AUDIT

2020-01 - MATERIAL WEAKNESS - CASH AND INVESTMENTS AND LONG-TERM LIABILITIES

Criteria

Financial statements prepared in accordance with GASB Statement No. 34 and No. 62 must include activities related to long-term liabilities. Reporting of long-term liabilities requires management to ensure that debt payment activities and new long-term debt are maintained and reconciled to ensure that outstanding balances relating to liabilities are reported accurately.

Condition

During the year end procedures relating to long-term liabilities, Crowe identified incorrect balances related to the defeasance of the 2011 Assessment Revenue Bonds and the initial recording of the 2020 Assessment Revenue Refunding Bonds. This resulted in cash and investments balances in the 2020 WASFCA Bond Debt Service Fund being overstated by \$12,298,210. In addition, the long-term liabilities balance was overstated by \$11,400,000.

Cause

The Agency's internal control over financial reporting did not function at a sufficient level of precision to identify the misstatement during the journal entry review process.

Effect

The Agency's financial statements contained material misstatements related to cash and investments, long-term liabilities.

Recommendation

We recommend the Agency continue its monitoring of these records to ensure proper recording of these accounts in its financial statements.

Management's Response and Planned Corrective Action

Management staff will continue to monitor records to ensure proper recording of these accounts in its financial statements. For rare transactions, including more complicated debt refinancing, management staff in the Finance division will coordinate with auditors and/or other financial experts during the posting of the transaction to be sure all appropriate entries are made and reviewed appropriately before posting to the general ledger. In addition, staff will continue to attend trainings to provide continued growth in the finance and accounting sector.

WEST SACRAMENTO AREA FLOOD CONTROL AGENCY JOINT POWERS AUTHORITY STATUS OF PRIOR YEAR FINDINGS AND RESPONSES For the year ended June 30, 2020

Finding 2019-01: Information System Controls (Significant Deficiency)

Condition

We evaluated system access to the City's Active Directory as well as the financial system, OneSolution. The Active Directory authenticates and authorizes all users and computers in a Windows domain type network—assigning and enforcing security policies for all computers and installing or updating software. For example, when a user logs into a computer that is part of a Windows domain, Active Directory checks the submitted password and determines whether the user is an authorized user.

Recommendation

We recommend that management should establish written system access policies and procedures which provide for the appropriate levels of user access based on the relative roles and responsibilities within the financial reporting system. A best practice is to provide the lowest level of access based on operational need. Further, we recommend the City perform a systematic review and maintain documentation of user's access rights within the financial reporting system, to ensure that a) there are not users with super user access who also have the ability to perform operational functions within the financial system and b) users access roles are only for those functions which are necessary to perform in the normal course of business. Additionally, we recommend that the City consider removing user access accounts for users which no longer have a business purpose to retain such access.

Current Status

Implemented.
